- Import of dangerous goods samples.

# Air freight solutions

---

- Full charter
- Part charter
- On-board courier
- Consolidation
- Back-to-back
- Customs brokerage
- Aircraft charter services
- Export packing
- Track & Trace
- Proof of delivery (POD) facilities

The transport of dangerous goods is subject to very strict rules and procedures. CDSP has extensive experience in all kind of chemicals ranging from class 1 to class 9 transport of dangerous goods such as: Explosives, Radioactive Material, Toxic substances, etc.

# Air freight solutions

---

Rules on the transport of dangerous goods are subject to continuous change. At CDSP we offer well trained specialists in the field of transport of hazardous materials. With their up-to-date knowledge we ensure a smooth handling of your hazardous materials transportation , we also arrange the repacking of chemicals in order to fulfill the requirements stated in the IATA Dangerous Goods Regulations for airfreight and the IMO International Maritime Organization Regulations.

Any products that might endanger the safety of people onboard an aircraft are considered 'Dangerous Goods' by the IATA. These items include lithium batteries, certain types of fuel cells, and infectious substances (such as virus samples being used in medical research).

We can consolidate your air freight with other companies' freight in order to give you a lower cost shipping option, but we can also provide direct services for your freight only. This second option is ideal for larger shipments or shipments that need to get to their destination as soon as possible.

# Air freight solutions

---

## **Complete Documentation of Exports & Imports:**

When you're shipping and receiving internationally, you'll need thorough import and export documentation in order to get your products through customs. CDSP, can complete this documentation so that you have one less obstacle.

## **Competitive Pricing:**

While it would be nice if we could all say, "Price is no object", we understand you have a bottom line to think about. With CDSP, you'll get professional freight shipping services at highly competitive rates.

With a team averaging over 21 years of experience per person, CDSP has the expertise in air cargo services you need when you have a critical international shipment. Thanks to our experience and our strong relationships with passenger and freighter airlines, we are able to offer cost-efficient shipping options to most worldwide destinations.

# Our Process

# Our Process

We take full responsibility as shipper, declaring that the goods are properly classified, packed, marked and labelled as per all dangerous goods regulations. Sample dispatch orders are handled via our fully-automated order administration system. We also ensure that client provided documentation such as the Material Safety Data Sheets (MSDS) and the Certificates of Analysis (COA) match each consignment.

- Door to Door/ D.T.D**
- Airport to Airport / A.T.A**
- Airport to Door / A.T.D**
- Door to Airport / D.T.A**

Sometimes our customer informs us how they want us to move their shipment and sometimes we do have to educate our customers to decide which of the above is more convenient for them.

# Refrigerated Freight Transportation

---

**Dubai is the most important Hub for the Foodstuff Trading, Import & Export in the region.**

Being a specialized operator in the field of fresh products and perishable cargo for several years. We have the ability & capacity to arrange the refrigerated freight transportation of the sensitive cargo that needs a special consideration to the constant temperature control such as fruits, vegetables, meat, poultry and dairy products by different modes of transport such as Sea, Air & Land transport.

**Handling of Reefer Containers is one of our normal challenge to fulfill the specific demand of the Supply Chain requirements to control the temperature of cargo and safety of goods.**

# Refrigerated Freight Transportation

---

- Mostly temperature-controlled storage and transport.
- Direct flights plus Perishables to Door service with refrigerated trucks.
- Excellent infrastructure for perishables at CDSP.

## Logistics for best possible freshness.

Within the required temperature range: transport and storage in predominantly temperature-controlled cargo holds and environments Pakistan's largest Perishable Center right at our Karachi hub with specially trained staff Shorter transport times between aircraft and storage space thanks to parking slots right in front of the Perishable Center.

# Refrigerated Freight Transportation

---

Save time with our special Perishables to Door service.

Direct delivery for select markets in Middle east and Europe by our chosen carriers Veterinary and a temperature-controlled environment.

Goods are delivered right to the recipient's storage facility, having already been inspected and declared for customs purposes.

Temperature-controlled transport all the way up to delivery through exclusive use of refrigerated trucks

Optimal planning through precisely defined delivery times.

Real-time tracking from acceptance until final delivery, including proactive information in case of process deviations.

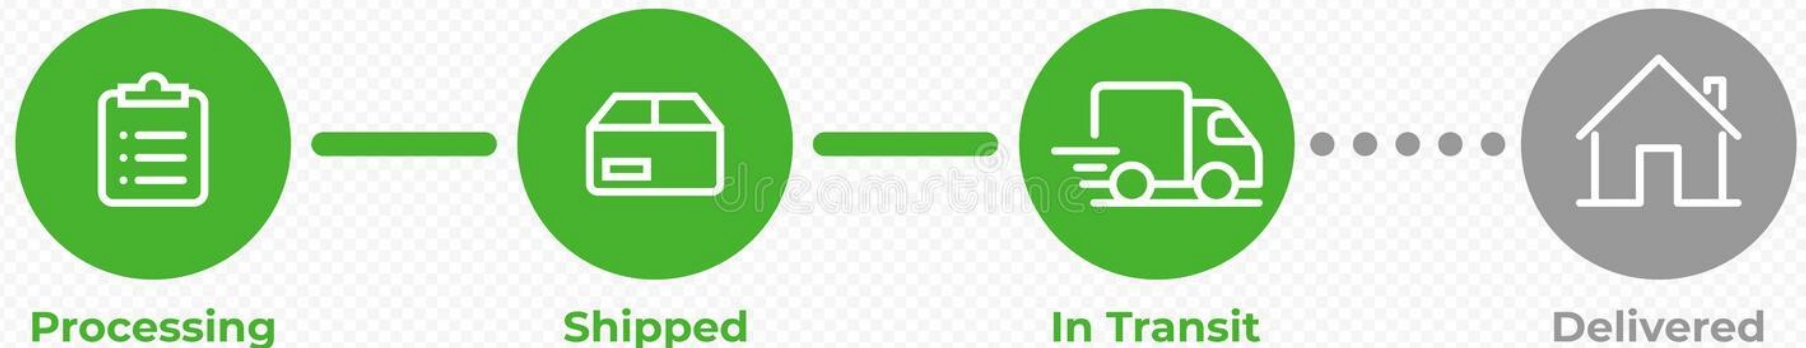

# Transit Time

## What is a Transit Time?

Transit time is the interval needed for a shipment to be delivered once it has been picked up from the point of departure. Basically, it is the amount of time spent when moving goods from one point to another.

The transit time vary according to route and the mode of transportation used. The exact time is mostly measured in hours and days.
